NOTRE DAME HIGH SCHOOL COVID TESTING

Notre Dame High School has worked with the Elmira City School District to arrange the testing required to re-open our school. The district, which provides our health office staff and materials, will be sending a team of nurses with their nurse-practitioner to administer the COVID testing in our school.

Signing this form gives the Elmira City School District your consent to test your child for COVID-19 infection.

FAQs:

How often would you test my child?

We are arranging for our laboratory and provider testing partners to come to school periodically to test some of the students and staff. If you consent, your child may be selected for testing on one or more occasion. In addition, your child may also be tested throughout the school year (1) in accordance with state mandates, or (2) if they exhibit one or more symptoms of COVID-19, or (3) if they are a close contact of a student, teacher, or staff person with COVID-19 infection.

What is the test?

If you consent, your child will receive a free diagnostic test for the COVID-19 virus. Collecting a specimen for testing involves inserting a small swab, similar to a Q-Tip, into the nose for five seconds per nostril.

How will I find out my child's test results?

You will be notified on the day of the test of your child's test results.

What should I do when I receive my child's test results?

If your child's test results are positive, you will be notified on the day of the test and given directions. Please contact your child's health care provider immediately to review the test results and discuss what you should do next. You will have to keep your child at home. If your child's test results are negative, this means that the virus was not detected in your child's specimen. Tests sometimes produce incorrect negative results (called "false negatives") in people who have COVID-19. If your child tests negative but has symptoms of COVID-19, or if you have concerns about your child's exposure to COVID-19, you should call your child's health care provider.

Will my child's information be shared?

The law allows some information about your child to be shared with and among certain New York State agencies and their contracted service providers. This information will be shared only for public health purposes, which may include notifying close contacts of your child if they have been exposed to COVID-19, and taking other steps to prevent the further spread of COVID-19 in your school community. Information about your child that may be shared with these agencies and service providers conducting COVID-19 Testing includes your child's name and COVID-19 test results, date of birth/age, gender, race/ethnicity, school name(s), teacher(s), classroom/cohort/pod, enrollment and attendance history, and extra-curricular, athletic, or other program participation, names of other family members or guardians, address, telephone, mobile number, and email address. Sharing of information about your child will only be done so in accordance with applicable law and state policies protecting student privacy and the security of your child's data.
